PROFESSIONAL EXPERIENCE

BIRDLIFE AUSTRALIA | FULLTIME

Nov 2023 – Present

ICT DEVELOPER

- Utilized Salesforce proprietary programming languages Apex & LWC to build custom web pages for it's front-end UI, enhancing the user interface and increasing user engagement by 25%.
- Facilitated the diagnosis and troubleshooting of software issues, identifying root causes and providing solutions, reducing incident resolution time by 30%.
- Assisted with the integration of Salesforce and WordPress, ensuring seamless data exchange between the two platforms, which improved data accuracy by 20%.
- Utilized Docker to run an instance of WordPress on my local machine to test code changes before committing them to our GitHub repository which triggered a GitHub action to ensure the code was ultimately merged with production.

PETPACK AUSTRALIA | FULLTIME

May 2023 – Nov 2023

WEB DEVELOPER

- Worked with a digital marketing agency with over 300 clients, specializing in building software solutions for veterinary clinics.
- Implemented SEO strategies which enhanced organic traffic and keyword rankings for our clients by 15%.
- Helped clients troubleshoot problems and communicated complex solutions in simple terms to non-technical clients.
