## Summary

I am an AWS certified Solutions Architect. I am also a web developer with expertise in JavaScript, HTML, CSS and React. With expertise in both domains, I bring a versatile skill set to the table. As an AWS solutions Architect, I specialize in designing scalable, secure, and cost-effective cloud solutions using the various AWS services. Simultaneously, my proficiency as a Front end Web developer allows me to create visually appealing and user-friendly interfaces. I have a deep understanding of HTML, CSS and JavaScript, and I'm skilled in frameworks like React. Combining these skills, I can translate business requirements into technical solutions that deliver exceptional user experiences. Let's collaborate on impactful projects where we can leverage the power of AWS and create outstanding web applications.

## Technical Skills

- Web development - JavaScript, HTML, Typescript, CSS, CMS, React
- Version control - Git, Git-hub
- CMS - Wordpress, Woo-commerce
- CRM - Salesforce
- Design - Adobe Creative Cloud (Photoshop, Illustrator, Indesign)
- Project management - Asana

## Certifications

- AWS Solutions Architect - Associate

## Languages

English, Mandarin, Igbo
